

THE BUSINESS AND INVESTMENT FORUM DURING COP24

The high level forum is aimed at the climate change arena's key decision makers: CEOs, thought leaders, business executives, investors, entrepreneurs, national, regional and city leaders. Based on a unique composition of summit, investment platform, and matchmaking, this two-day forum will complement UNFCCC's COP climate negotiations and the Global Climate Action Agenda as the place to do business and to identify new technology and investment opportunities in support of the Paris Agreement.

PARTNERSHIPS FOR THE IMPLEMENTATION OF THE PARIS AGREEMENT

World Climate Summit - The Investment COP partners across government, regions, cities, businesses and finance for business and investment-driven climate solutions. The event is the largest, best integrated and most well-established platform for business and investment-driven climate solutions, building on 8 years of World Climate Summit during COP negotiations.

Invest

Highlight investment opportunities in technologies that support the low-carbon transition and facilitate collaboration and deal flows

Showcase

Showcase country and company leadership, investment plans and business-driven solutions to climate projects.

Launch

Launch new funds, projects and technologies that will unlock the new climate economy

Match

Advance the low-carbon and resource-efficient marketplace through professional matchmaking

World Climate Summit - The Investment COP 2018 will consist of:

Investment COP - Investment COP will convene countries, project developers, investors and other stakeholders to design and mobilise climate investments.

Conference - World Climate Summit will provide keynote presentations, panel discussions, workshops, detailed public-private partnership sessions and TEDstyle talks with high-level representatives from business, finance, government and civil society.

Matchmaking & Pitching - The premier platform for public-private partnership development and pitching on climate projects and new technologies.

COLLABORATIVE PLATFORM FOR BUSINESS AND INVESTMENT-DRIVEN SOLUTIONS AT THE COP

World Climate Summit - Investment COP will take place during the COP24 negotiations in December 2018. The event will be held at the Vienna House Easy Angelo, the best conference hotel in Katowice, placed within easy walking distance from the COP building.

Investment COP

The Investment COP will focus on the full launch of the Climate Investment Platform (CIP), which is developed as a multi-stakeholder initiative to help countries, regions, cities, investors and businesses identify new technology and investment opportunities in order to accelerate the transition to a low-carbon economy by doing business.

BENEFITS

Accelerate the supply of finance, technology and solutions to the national climate plans and local climate actions made following the Paris Agreement

Network with 500+ climate leaders across sectors and industries at the premier business event at COP

Speak on C-level only panels with executives from government, business, finance and civil society

Identify new technologies, business models and climate-related investment opportunities

Present your climate projects to a global audience of buyers and potential business partners, such as countries, regions, cities, investors and technology companies

Engage in strategic project development, climate-related investments and deal flows

PARTICIPANTS

Investment COP at World Climate Summit 2018 will gather the global top 1000+ climate leaders including:

- C-suite executives from financial institutions (commercial banks, pension funds and international development banks)
- A large number of CEOs and decision makers who attend for business and partnership opportunities
- Public, private, multilateral and philanthropic investors
- Government leaders such as presidents, ministers, mayors, negotiators and experts
- Leading technology and project developers

WORLD CLIMATE LTD

Since 2010, WCL has established itself as the foremost international platform for solutions to climate change and accelerating the green economy. It works with government, finance, business and the civil society in creating growth, innovation and solutions for a low-carbon and resource-efficient world.
